EXPERIENCE

Web Development

github.com/eika12345/greensolar.com

July 2026

- A redesign of a solar panel installation website. Focuses on improving UI/UX while keeping the same functionality. Features multiple languages, functional quote calculator, solar calculator, and blog/projects pages powered by Google Sheets.

github.com/eika12345/Eikas-Den

January 2026

- Eika's Den is my personal e-commerce website. I went for a brutalist/minimalistic style. Payment gateway is powered by Stripe. Coded in plain HTML, CSS and JS.

Web Design

github.com/eika12345/Right-Removals-Redesign

December 2025

- A modern re-design of a moving company's website. Aims to stay as close to the original website as possible, while fixing many of the UI/UX problems found. Features quote and admin pages powered by Supabase, and a Google reviews component powered by Elfsight. Coded in plain HTML, CSS and JS.

github.com/eika12345/portfolio

October 2025

- Version 4 portfolio. Coded in plain HTML, CSS and JS. Built with an animation-centric approach, using GSAP to create transitions and hide loading times.

github.com/eika12345/windows-98

June 2025

- Version 3 portfolio. Created in the style of a Windows 98 Desktop. Includes many small true to life features like moving/stacking windows, minimising/maximising windows, a functional start menu, and more. Coded in plain HTML, CSS and JS. Uses a 98.css library to recreate the classic interface.

EDUCATION

International Advanced Level ICT, Geography, Business Studies

El Limonar International High School • 2024 • C, D, E

Cambridge English CPE C2

El Limonar International High School • 2024

International Advanced Subsidiary Level EPQ

El Limonar International High School • 2023 • C

- Wrote a 5000 word investigation and done a field test on the increasing use of AI in our daily lives. I explored how it has been incorporated by business to target advertisements, use microphones to listen for keywords and gather information on people. I conducted a test where I went on a fresh browser and enabled all tracking services (microphone, location etc), then spoke about a product in the hopes that advertisements about it would appear. Within minutes, several websites contained that product.

INVOLVEMENT

School Council

El Limonar International High School • September 2022 – September 2023

- Collaborated with students to organise events: Sports day, Halloween etc
- Led changes to improve student experience: Gave students more freedom within private study times, made mobile phones more acceptable
- Worked with the IT Technician for a month to assist in software and hardware related problems

SKILLS

HTML, CSS, JavaScript

Node, Git

Supabase, Google Sheets

Stripe, Printful

Brevo, Formspree
